

## DECISION MAKING

### What's it all about?

A 2-day training workshop to learn how to effectively make good decisions individually and in a team, and how to avoid the most common and dangerous decision traps.

### Who's it for?

- Managers and employees who want or need to develop their decision making capabilities and learn how to arrive at better decisions by applying systematic decision making tools and procedures
- Up to 24 delegates

### What do you get?

- An appreciation of the importance of structured decision making situations to arrive at well-framed decision challenges, meaningful decision alternatives, and effective decisions.
- Exposure to ca. 16 practical decision making tools catering to a wide range of business issues.
- Awareness of the most common thinking traps, cognitive biases and thinking heuristics that lead to poor decisions.
- Passion for, and commitment to, systematic thinking in decision-making through many application exercises and insightful activities.
