INNOVATION TRAINING

LEARN HOW TO WOW

PROBLEM SOLVING

What's it all about?

A 2-day training workshop to learn how to think in more structured ways while doing problem solving, in order to help the participants to arrive at meaningful solutions for their everyday problems at work.

Who's it for?

- Managers and employees who want or need to deepen their problem solving capabilities and learn how to produce better solutions and results through structured, systematic thinking
- Up to 24 delegates

What do you get?

- An appreciation of the importance of structured thinking in problem solving to arrive at well-framed problems and meaningful solutions.
- Exposure to ca. 16 practical thinking tools for problem solving that cater to a wide range of business issues.
- Awareness of the most common thinking traps and thinking heuristics that lead to suboptimal solutions in problem-solving.
- Passion for, and commitment to, systematic analytical and creative thinking in problem solving situations through many application exercises and insightful activities.
